PROJECTS

My Portfolio · 03/2024 – 04/2024

- Developed a personal [Portfolio Website](#) using HTML, CSS, JavaScript, Bootstrap, and Python
- Implemented seamless navigation, interactive buttons, and integrated Font Awesome icons, linking to various professional profile pages.

Django Personal Blog · 06/2024 – 08/2024

- This Project is a feature-rich blogging platform built using Django. This project allows users to create, update, and delete blog posts, manage their profiles, and interact with content through likes and comments. It leverages Django's built-in authentication, authorization, and password management functionalities.
